MODULE 1 FOCUS

- PRELIMINARIES
 - *What's this All About?*
- ZONING DISTRICTS, LAND USE, BUILDINGS, AND STRUCTURES
 - *What Can I Do?*

- DEFINITIONS
 - *What do the Words and Acronyms Mean?*

PT. 1: PRELIMINARIES

- The “Boilerplate”
 - Title
 - Purpose and Intent
 - Authority
 - Applicability
 - Minimum Standards
 - Compliance

PT. 2: ZONING DISTRICTS, LAND USE, BUILDINGS, & STRUCTURES

- Establishes New Zoning Districts:
 - 43 zoning districts in current code (including sub-districts in OT, NC, and CC zoning districts)
 - 21 zoning districts in proposed code (including sub-districts in OT and MU zoning districts)
 - ***A 51% reduction in the complexity of land use tables!***
 - ***New zoning districts implement comprehensive plan objectives and provide greater flexibility without dependence on PUD zones***

NEW ZONING DISTRICTS: STRATEGIES

- Residential Strategy:
 - Residential / Agricultural replaces current Agricultural zone
 - Residential Conservation replaces current residential zones in areas with established neighborhoods
 - Maintains existing character
 - Residential Infill replaces current residential zones in areas with established neighborhoods that are increasing in intensity
 - Allows intensification
 - Residential (6 u/a, 13 u/a, and 24 u/a) replace current residential zones in undeveloped / developing areas
 - Allows a mix of housing types

NEW ZONING DISTRICTS: STRATEGIES

- Nonresidential Strategy:
 - Business, Residential allows conversion of homes into businesses, as well as residential-scaled businesses
 - Mixed-Use (suburban, urban, TOD), allows a wide range of development opportunities in areas currently zoned for commercial or mixed-use purposes
 - Industrial, Light and Industrial, General replace I-1 and I-2 zones, as well as Clear Creek industrial zones
 - Parks and Open Space replaces Conservation

NEW ZONING DISTRICTS: STRATEGIES

- Olde Town Strategy:
 - Retaining existing Olde Town approach, including sub-districts
 - Cleaning up standards to clarify points of ambiguity

NEW ZONING DISTRICTS: STRATEGIES

- Planned Unit Development Strategy:
 - Collapse PUD into a single “zone” instead of PUD-R, PUD-BP, PUD-BPR, and PUD-I
 - Rezone, to extent possible, existing PUDs to “straight zones”
 - Allow PUD in future only for extraordinary new development

PT. 2: ZONING DISTRICTS, LAND USE, BUILDINGS, & STRUCTURES

- Part 2 also sets out land use tables that incorporate the new zoning districts
 - Builds upon prior work with Article 5 reform
 - 9 Tables, based on nature of uses listed in table:
 - Residential; special residential; hospitality, recreation, & entertainment; commercial; community, civic, educational, health care, & institutional; industrial, processing, recycling, storage, & disposal; motor vehicle; utility & communications; agriculture

PT. 2: ZONING DISTRICTS, LAND USE, BUILDINGS, & STRUCTURES

- Allows uses based on three different levels of review:
 - As-of-right use – staff approval
 - Limited use – staff approval, subject to use-specific standards
 - Conditional use – public hearing approval, subject to general conditional use standards and use-specific standards
- Each row provides a cross-reference (hyperlinked) to use-specific standards if there is a zoning district in which they apply
