

## PARKS DEPARTMENT

### ATHLETIC FIELD WEATHER POLICY

ESTABLISHED JANUARY 2000

Updated 2022

- Standing water in goal mouths, midfields, or any other playing surface
- When frost exists
- Snow covered
- Where grass is sparse or field is worn badly and ground is saturated

In the case of unusable conditions, athletic fields will be closed.

***No Snow Removal will be performed or permitted at any time on any athletic field.***

If at any time conditions exist that indicate that field damage will occur, games will be postponed.

There will be one primary contact for communications between the Permittee and the City of Arvada Parks Department. All communications will be channeled through these two representatives. A back up person or persons will be identified when the primary representative is unavailable.

If the Permittee primary contact in charge has any doubts that games should not be played, then they must contact the Parks Department and a recommendation will be made at that time.

No motorized vehicles will be allowed on any field or park under any conditions.

The City of Arvada Parks Department has the ultimate authority to close the fields if necessary at any time due to weather conditions, unforeseen maintenance situations, or for the safety of its participants.

***Permittee may be held liable for damage to Infield, Turf, and Irrigation if fields are damaged from use.***

**Field Status will be updated by 1PM on the City of Arvada's CivicRec Site - Athletic Field Status Tab**
