## Electronic Database Use – Retailer Held Harmless

Any retailer that collects and remits sales tax to the finance director as provided in this article may use an electronic database of state addresses that is certified by the state department of revenue pursuant to C.R.S. § 39-26-105.3, to determine the jurisdictions to which tax is owed.

Any retailer that uses the data contained in an electronic database certified by the state department of revenue pursuant to C.R.S. § 39-26-105.3, to determine the jurisdictions to which tax is owed may be granted held harmless for any tax, penalty, or interest owed the city that otherwise would be due solely as a result of an error in the electronic database.

Per *Arvada Municipal Code* section 98-108, a retail business must meet the following requirement in order to be granted held harmless for any tax, penalty, and interest owed to the city.

1. The retailer must demonstrate that it uses the most current information available in such database at the time the sale occurred.
2. Each retailer shall keep and preserve such records to demonstrate that it uses the most current information available in the electronic database on the date the sale occurred.

Notwithstanding the above, if the error in collecting and remitting is a result of a deceptive representation, a false representation, or fraud, the provision of this section shall not apply.

Welcome to the Sales and Use Tax Simplification (SUTS) Lookup Tool!

This site is now available for your review.

Some cities in Colorado are in process signing up with the SUTS program. Cities that have not yet signed up will be shown with a red exclamation mark beside their sales tax rate. Those cities are not yet accepting sales tax returns through the SUTS system, but you can still see their rates and jurisdiction codes when you look up a location within their boundaries.

Search for any location in Colorado down to a street address.
