Mail Tampering

Did you know that Arvada Police can take a crime report online? Online reporting is used for crimes where there is no suspect information, the crime is non-violent or a non-emergency, or when the crime happened more than 30 minutes ago. Citizens can visit **[www.arvada.org/report-a-crime](http://www.arvada.org/report-a-crime)** and choose from a variety of crime types – auto accident, property damage, trespassing, forgery, and more.

These online crime reports are useful, allowing residents to receive a Case Report number for insurance purposes (it will be received via email) while providing pertinent information to Arvada Police for follow up. When “cold cases” are called into the police department, officers are dispatched as they are available. This can sometimes require a long wait – the online reporting tool allows residents to quickly start the reporting and claim process.
